"Where Quality and Price Meet"

Youth Escapes Death On Farm Near Magrath

Youth Stops Tractor with Stones
When in Front of Farm Disc

Jack Minion, 18-year-old son of Mrs. Nellie Minion, of Magrath, Alta., was found one day last week lying in an unconscious condition in the field, lying between the tractor and disc. Dr. Fowler was summoned, but the boy did not regain enough consciousness until the next day to tell of the accident.

It seemed that he slipped as he was adjusting the levers in the machinery

and fell from the engine, hurting himself. Realizing his dangerous position he pulled himself to the beam and threw two stones at the engine to throw it out of gear. Failing this he threw a third stone which hit the mark and stopped the tractor. In throwing the last stone he fell from the beam and became unconscious. When found his legs were between two of the discs and if the machine had travelled a little further his body would have been cut to pieces.—Calgary Herald.

It is pleasant to think of the Garden of Eden, without taxes, reformers, working hours or relatives.

Local Boys Lose to Visiting Team

The ball game on Monday night between Olds and Didsbury was played under adverse conditions the final score being 4 to 1 in favor of the visitors. Showery weather during the afternoon led one to speculate as to whether the game would be possible, but towards six o'clock the silver lining appeared and improved prospects considerably, so much so that Didsbury decided to play. The fickleness of the weather man, however, again exemplified itself in a heavy downpour, and when conditions improved enabling invasion of the ball diamond, first and second bases had been transferred to the "wet" column, whilst the diamond itself (as an observer remarked) was in a neutral condition. Olds had meanwhile arrived, but the prevailing conditions led the visitors to hesitate, which so far as the Didsbury crowd was concerned, was viewed with a certain amount of disfavor. Our northern neighbor, however, eventually followed the cue given by the home team and decided to try and make the best of things.

The visitors got the lead the first inning, making two runs to Didsbury's one. There was no more scoring done until the last inning, Olds scoring two more runs and Didsbury one. The game was called at the end of the fifth inning on account of darkness. The following was the line-up of the teams:

Olds: Sutherland, Drew, Hanson, Keown, Barber, Maybank, McCormick, Neilson, Gebert; Battery: Gebert and Keown. Didsbury: Evans, Wyman, Cook, Marks, Studer, Clemens, Keith, Berscht, Liesemer; Battery: Liesemer and Clemens.

OBITUARY

Conrad C. Swalm was born at Collingwood, Ontario, July 9th, 1855, and went to be at home with the Lord from his earthly home in Didsbury on Monday, May 28th, 1928, at the age of 72 years, 10 months and 19 days.

January 10th, 1877, at Stayna, Ont., he was united in marriage to Rachel Sherrick who preceded him in death ten years ago. To this union were born six children, four daughters and two sons: Fanny, Noah, and Nellie of Didsbury, Mrs. William Hall of Calgary, Luella and Wesley, deceased.

Brother Swalm had for many years been a devoted believer in and follower of our Lord Jesus Christ, having been saved at Stayner, Ont., in a special meeting conducted by Noah Detwiler fifty years ago. He came as a pioneer to Didsbury in 1899 and his life here has for many years been a testimony to God's grace and saving power. He died in the triumphs of the Christian's faith, and is now absent from the body but at home with the Lord. The deceased leaves to mourn their loss his four children and eight grandchildren, besides many friends and neighbours.

The death took place on Monday, June 11th of Annie, beloved wife of R. D. Anderson, in her sixty-fifth year. The deceased, together with her husband, has lived in the Dog Pound district for about 30 years, originally coming from Scotland, and is well known in and around Didsbury.

The funeral takes place today (Thursday) from the United Church at 2 o'clock.

In addition to her husband, Mrs. Anderson leaves to mourn her loss one brother, John Manson, living here, and a nephew, Hugh Sinclair living at Acme.

Card of Thanks

We wish to thank our many friends for their kind help and sympathy during our Father's illness and death.

East Is Coming West

The recently announced decision of the General Motors Corporation of Canada to proceed immediately with the erection of a million dollar manufacturing and assembly plant at Regina is gratifying news, not alone to the citizens of the capital city of Saskatchewan, but to all Westerners, because it indicates that at long last the leaders of industry in the East have come to a realization of the fact that they cannot continue indefinitely to supply the rapidly growing western market from factories located thousands of miles away, and compelling the western purchaser to pay greatly enhanced prices by reason of freight charges based upon the high classification imposed upon finished articles.

Western people have contended for some time now that the logical industrial development in Canada is the establishment of branch factories in the West. There was a time, not more than a couple of decades ago, when the view prevailed that the western market could be supplied not only from Eastern factories, but from Eastern wholesale houses. Gradually, as western population grew and the volume of business increased, branch wholesale houses were opened in Winnipeg, and since they have gradually spread all over the West, until today wholesale establishments located in all the larger western centres of population very largely supply western needs.

The same development which thus characterized the business of wholesaling and distribution must inevitably now follow in the work of manufacturing itself. Freight charges on the transportation of necessary raw materials into the West will be substantially lower than charges on the finished products, while the opening of western factories may, and in all probability will, encourage the production for use of certain raw products of the West which today lie undeveloped because of a lack of market.

The decision to locate branch industries in the West is furthermore pleasing to Western people because it indicates recognition by Eastern industrial leaders of the fact that, if they are to command the support and sympathy of the West, and if past lines of separation between east and west are to be wiped out, and a new national viewpoint developed, the East cannot continue to merely accept the cream of western trade and profits in years of good crops and times of plenty, but must come west and throw in their lot more wholeheartedly with the people here and, while benefitting in years of abounding prosperity, also carry their share of the burden in years of slim crops and business depression.

With wonderful activity prevailing in the work of prospecting and developing the immense mineral areas of the northern portions of the three prairie provinces, with large schemes of power development now receiving attention, and with the new, larger, more national viewpoint gaining headway among the financiers and industrial leaders of the East, there is every reason for saying that a new era in the history of Western Canada is opening.

While the West will long continue to excel as an agricultural country, and will steadily expand its annual production from its rich prairie lands, it seems safe to predict that from this time onward industrial development will move along in keeping with the agricultural growth and mineral development of the country.

Such development offers the best and most practical solution of one of the West's big problems, namely, the unemployment difficulty which annually presents itself because of the seasonal nature of the basic industry of this country. In this connection it is pointed out that the "peak" period of production in Regina's new industry will be in the late winter and early spring months, before active outdoor building operations, railway construction and road making gets under way, and when under present conditions unemployment is at its maximum.

Viewed from all standpoints, therefore, the whole West can unite in welcoming the momentous decision of one of Canada's greatest industrial concerns to establish a large branch plant in the heart of the prairie west. Its action will be but the forerunner of many similar decisions by other large manufacturers, and a resultant development from which every Western centre, and every Western citizen, will benefit.

Gold Medal For Edison

Its 1925 gold medal for Science has been awarded by the Society of Arts and Sciences to Thomas A. Edison, the inventor. Plans for a large public testimonial in New York when the medal is formally presented to Mr. Edison are nearing completion. It is expected that the event will bring together ambassadors of foreign governments and head of leading scientific societies, universities and industries.

Federal Income Tax Collections

Federal income tax collections for the fiscal year 1927-28 totalled \$56,370,972, an increase over the preceding year of \$9,000,000, in spite of the reduction in the income tax last year. Montreal's share of the payments was \$17,374,963; Toronto's \$13,320,640, and Vancouver's \$5,140,359.

Children may cry for the moon until they get big enough to want the earth.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Alberta Sells Railway

Purchasers Obtain Rights and Titles To the Lacombe and North-western Railway

A cheque for \$1,510,582.59, turned over to the provincial treasurer of Alberta, by the Canadian Pacific Railway, on May 10th, purchased the Lacombe and Northwestern Railway. The company obtained full possession, right and title of the latter property, with all securities and capital stock of the land of the company. The new directors are: D. C. Coleman, vice-president of the Canadian Pacific; G. A. Walker, solicitor at Calgary; George Fox, superintendent at Edmonton; C. D. Porter and George Hutton.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands Of Mothers Say Of Baby's Own Tablets

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use nothing else. Concerning them Mrs. Charles Hutt, Tancook Island, N.S., writes:—"I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past 20 years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brackville, Ont.

Great West Airways

First Commercial Flying Company On Prairies Is Established At Calgary

Backed by many of Calgary's prominent citizens, managed by Capt. F. R. McCall, D.S.O., M.C., D.F.C., and known as the Great West Airways, Limited, the first commercial flying company on the prairies west of Winnipeg, is expected to be in operation within one month, with Calgary as base. It is announced. The objects of the company are to carry on the business of aviation in all its branches, including the giving of instruction to pilots and air engineers.

For Sprains and Bruises.—There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by counteracting the inflammation. A trial will convince any who doubt its power.

New Market For Purebred Hogs

B.C. Branch Of Canadian Swine Breeders' Association Cultivating Market In Antipodes

For the past year the secretary of the B.C. branch of the Canadian Swine Breeders' Association has been engaged in seeking new markets for purebred hogs, paying special attention to Australia and New Zealand. As a result many demands have been received, interest being stimulated by New Zealand's removal of the embargo on stock with a clean bill of health.

Many people are almost crippled with corns. But it is needless suffering which can be speedily ended with Holloway's Corn Remover.

Britain's Air Mail Grows

Air mail activities in Britain are growing rapidly. Letters dispatched from London last year totalled 27,000 pounds, as compared with 17,000 in 1926. Air parcels were 74,000 pounds in 1927, and only 55,000 pounds in 1926. Ten thousand pounds of letter mail were carried to European destinations alone in the past 12 months.

The outcome of a basketball game and buckwheat cakes depends upon the batter.

A safe and sure medicine for a child troubled with worms is Mother Graves' Worm Exterminator.

Always heat a new range gradually. This will prevent the possibility of its cracking.

For Hay Fever—use Minard's.

Air Patrol On Hudson Straits

Straits Open For Navigation Much Earlier Than Even Friends Of Route Anticipated

Flying operations have been resumed in Hudson Straits, and reports from the air bases reveal that the ice has already cleared out of the eastern end of the channel and is broken up in the centre and western sections. It is the opinion of the air-men and marine officials stationed in the straits that an ice breaker could open a channel right through the straits at present. No ice breaker is available, but the department announces that a vessel of this type will be available before next spring.

The time when the straits will become easily navigable is as yet doubtful, but it is quite clear that ice conditions are not nearly as heavy a handicap as has always been supposed and that the straits will be open much earlier than even the friends of the route anticipated.

Fur Farming Leases

Already there are 800 applicants for fur-farming leases in the swampy St. Paul de Metis district of Alberta, recently made available for fur-farming purposes.

A reliable antiseptic—Minard's.

The cost of the Suez Canal was about \$127,000,000.

Japan Buys Canadian Poultry

Japanese Government To Purchase Birds For Experimental Farms

According to a recent report, the Japanese Government has sanctioned a programme for the purchase of 1,000 birds annually, for five years, for its five experimental farms. Some of this poultry will probably be bought in British Columbia, and is one more evidence of the splendid publicity which Canadian stock received at the World's Poultry Congress in Ottawa last year.

Miller's Worm Powders are complete in themselves. They not only drive worms from the system, but repair the damage that worms cause and so invigorate the constitution that it speedily recovers from the disorders of the digestion that are the result of the work of these parasitic intruders. They do their work thoroughly and strength and soundness follow their use.

Lindbergh's famous plane, the Spirit of St. Louis, has been placed in the Smithsonian Institute at Washington. Years hence, folks will look at it and say: "Wonder how he ever did it in that old crock?"

For Rheumatism use Minard's Liniment.

Nearly 50 men of more than 60 years of age are inmates of Canadian prisons.

"Modernize" Your Farm This Modern Way

Nearly every building on the farm can be greatly improved and "modernized" by Gyproc.

This famous wallboard is recommended by leading contractors for both new and old construction because it gives advantages offered by no other material—fire-safety, rigid strength, economy and cold and heat resistance.

All these vital advantages! And you get them for nothing—because Gyproc costs no more than products that have none of Gyproc's remarkable qualities.

Gyproc makes durable, permanent walls and ceilings in less time and at less cost. Gyproc Joint Filler on the joints assures a smooth, flat surface which takes any decoration—particularly suitable for Alabastine.

SEND FOR FREE BOOK

Canada Gypsum and Alabastine Limited, Winnipeg, Canada. Please send handsome free booklet, "Walls that Reflect Good Judgment" which contains valuable information on Gyproc for farm use.

E.J.C. GOODER, Editor & Manager.

SHUN THE PEDDLER

The summer season, now at hand brings with it an economic ill that annually takes a toll of thousands of ill-gained dollars. It is the itinerant peddler, the house to house doorbell ringer and those of his kind who travel from place to place plying their trade and imposing on the credulity of the unthinking, offering bargains in this and that which most always turn out to be inferior merchandise sold at higher prices or in short measure. It is well to beware of these fellows and the plausible stories that they tell to engage the interest and confidence of their prospects.

They are of many varieties and with as many kinds of merchandise to sell.

Inferior articles of many kinds are peddled about hither and yon during the summer months. The automobile has been a great aid to this kind of chicanery, for after he has landed a few gullible prospects a day's journey will take him far away and beyond the reach of the buyer who discovers that he has been victimized.

What better insurance can there be than buying from the home town merchant? If for any reason the article proves unsatisfactory he is ready and willing to correct the trouble and satisfy his customer. Not so with the peddler—he is gone tomorrow or yet today if the chase gets too hot. He is not seeking to satisfy his customer—he is after the money alone. The home town merchant stakes his reputation and his success on his record for fair and honest dealing. He may be found at his place of business day in and day out, year in and year out. There is nothing elusive about him.

When folks want support and contributions for this and that, they know where to find him and he gives willingly and generously. Did anyone ever hear of the itinerant merchant contributing a single cent for the advancement of a local cause? There is one real way of insuring good goods at reasonable prices, one way of getting good value for the dollar expended, and that is to buy of the reputable home town merchant.

DIDSBURY STORES

Retail stores are doing business today on a smaller margin of profit than ever.

The higher range of prices prevailing since the war has stimulated competition and has forced retail trade to remodel its system of operation and to make every possible improvement and economy in its methods.

Merchants today are putting more brains in their work. They get better expert advice, they understand markets better, they train their employees to render better service.

The best way to make the people of Didsbury realize the fine quality of the service they get from their stores is by consistent advertising of those stores. As they read the newspapers advertising people learn about special chances to buy goods which they would never have known about otherwise.

They learn that stores are carrying lines that they know nothing about. They get information warning them of the conditions that tend toward higher prices, and showing them how they can save money by prompt purchasing. They learn that their home

LOCAL & GENERAL

Miss Amy Atleek of Edmonton is visiting Dr. and Mrs. J.L. Clarke.

F. Moyle shipped two cars of hogs to Calgary last week.

Mrs. W. H. Adams of Vernon, B.C. is visiting at the home of her daughter Mrs. E. N. Boettger.

Mrs. Craig of Moncton, N.B., is visiting Mr. and Mrs. Tighe en route to the Coast.

Fred Boettger of Mayton spent Monday here visiting his two sons, Dave and Ed., in addition to transacting some business.

Mrs. Cowan of Homiata, Man., and Mrs. Wade of Cochrane are visiting at the home of Mr. and Mrs. J.S. McCloy.

Wm. Pitt, one of our local contractors, has been awarded the contract to build the new school at Grand Centre.

A meeting of the Didsbury Fish and Game Association will be held in the C.P.R. waiting room, Tuesday, June 19th at 8.30 p.m. Everyone invited.

The Ladies' Aid of Knox United Church will hold a silver tea from 3 to 6 o'clock and a business men's supper from 5.30 to 7 o'clock, Saturday, June 16th at the home of Mrs. Dr. J. Leslie Clarke.

Business men: Check over your stock of stationery. Any shortage can be replenished by our job printing department at short notice. We are well equipped to give good service. We keenly appreciate home industry patronage.

On Monday, June 18th, the W. M.S. of Westerdale will serve supper from 7.30 to 9.30 in the Club House, followed by a lecture by a lecturer by Mr. Churchill of Red Deer, entitled "How much do you weigh?" Proceeds to Missions.

About 15 members of St. Hilda Chapter, O.E.S., were present at the Grand Lodge session at Calgary last week, a most enjoyable time being spent by all. W. Leadbetter was appointed Grand Sentinel and in addition received a lovely gift from St. Hilda and a pair of gold Masonic cuff links.

BURNSIDE NOTES

Mr. and Mrs. Vernon and family of Calgary, the local Fuller Brush agent, spent last week end at Joe Clark's.

The dance advertised for June 15th in the Lone Pine Hall has been postponed until Wednesday, June 20th because of improvements being made in the hall.

Don't forget to come to the annual picnic of Burnside U.F.A. on June 29th. Ladies are requested to bring supplies of food for the noon dinner. All kinds of sports in the afternoon. Good prizes. Hot dog supper. Dance at night. Keep this date in mind.

On Monday afternoon at the home of his only surviving daughter, Mrs. Wm. McCulloch, the death occurred of Mr. L.K. Carson. Most of his life had been spent in Iowa and Minnesota and a few years ago he came to Alberta to make his home. He is survived by one daughter mentioned and one son, Walter, of Washington, D.C. The funeral from the United Church on Wednesday afternoon was attended by many who felt they had lost a good friend in the death of a kindly cheery neighbor.

WESCOTT W.I.

The Baby Clinic held at the home of Mrs. Robertson, Sr., on June 4th was well attended. It is certainly a step in the right direction that so many mothers take advantage of these splendid opportunities of having their babies medically examined.

merchants have been scouring the country to obtain the best merchandise obtainable. They discover that their home stores are working mightily to provide the necessities and conveniences of life at the lowest possible price consistent with substantial merit.

The advertised store is the appreciated store.

HIGHWAY MANNERS

In an address to the Good Roads convention, Mr. J. A. Begin, comptroller of revenue in the Province of Quebec, outlined some rules of courtesy on the highways which should have the most careful consideration of every motorist. He is content with generalities, but has carefully prepared the following regarding autos:

1. The driver should allow the one following him to pass if the latter signals his attention to do so.

2. The driver of a truck, an autobus or other vehicle, should keep to the right hand and should not drive in the way of lighter vehicles.

3. The driver should put his car out of the road when he has to do any repairs or make any change.

4. He should use the spotlight on country roads only, and with the light thrown only on the right side of the road.

5. He should be careful not to splash anyone with mud or water.

6. He should slow up for the crossing pedestrian instead of driving him out of the way with loud and imperative blasts of the klaxon.

7. He should not use his klaxon as a doorbell to call somebody out and should realize that other people want peace, rest and sleep, especially at night.

These are excellent rules and the press all over the country is drawing attention to them. There should be a set of additional rules that would apply to pedestrians. There are obviously many things which they do that cause trouble to auto drivers and danger to themselves. Some stringent enforcement of the rules also appear necessary as to children playing in the streets. Only those who drive autos fully appreciate the anxiety this causes to drivers. There are a few little dare-devils who seem to take delight in seeing how far they can risk their lives in dodging motors. More laws are not required, but only the proper enforcement of those now existing.

The ups and downs of the C. & E. Ry. from Calgary to Didsbury can be traced by the following altitude measurements. Calgary station has an altitude of 3,439 feet, when an ascent of 113 feet is made at Airdrie is reached at 3,552 feet, continuing the climb to Crossfield, 80 more feet in the air, makes that town's height above sea level 3,632 feet. A descent of 157 feet brings us to Carstairs, at 3,475 feet, and going down 64 more feet brings us to our station which altitude is 3,411 feet, being 28 feet lower than Calgary.

POOR SALARIES PAID SCIENTIFIC AGRICULTURISTS

Ottawa.—A motion to go into supply in the House of Commons prompted C. G. Coote U.F.A., Macleod, to protest that salaries paid to men in the scientific and technical positions of the department of agriculture were inadequate.

Mr. Coote declared that the department of agriculture was losing the professional men because of the low salaries which were paid. He gave a comparison between salaries paid in the United States service and in the Canadian to illustrate the fact that Canada paid much less than the U.S.

The professional service of Canada said Mr. Coote, must compete with that of the U.S. for men. As things now stood many Canadians went to the U.S. to take post-graduate university courses. Frequently they remained there because of the fact they could obtain more money in that country.

Mr. Coote compared salaries paid in the cereal division of agriculture with those paid in the geological survey. The figures he quoted showed that the salaries in the cereal division were lower. Canada could not afford to lose her scientific agricultural men, he declared. Agriculture was Canada's basic industry and wheat growing was the most important phase of that industry.

J. S. Steedman, Liberal-Progressive, Souris, declared the question of the salaries paid to scientific agricultural men was one of the most important matters which had come before the house this session. It should be realized that the prosperity of Canada depended largely on her agriculture, yet the ravages of disease were spreading in certain quarters of agricultural Canada, and it was of prime importance to the Dominion as a whole that adequate salaries be paid our scientific agricultural officials so that their research efforts could be used for the benefit of agriculture in this country.

Inspection Satisfactory

Objection To Examination Of Immigrants By Canadian Doctors Unwarranted

Toronto.—"We have examined every single objection that has been raised against the examination overseas by Canadian doctors of assisted passage immigrants and we have not found one that will hold water," declared Dr. David Clark, assistant Deputy Minister of the Department of Natural Health, in an interview here.

Articles appearing in certain sections of the British press against the policy of having Canadian doctors conduct examination of immigrants were full of inaccuracies, he said.

"The causes of a decrease in immigration to Canada this year," continued Mr. Clark, "lie deeper than the medical inspection policy. One of the causes for the decrease of immigration from Britain, he felt, was the feeling of increasing optimism there

A Martyr To Science

Noted Doctor Is Latest Victim Of Scientific Research

London.—News was received here of the death of Dr. William Alexander Young, director of the Gold Coast Colony, Africa. Dr. Young was a co-worker with Dr. Hideyo Noguchi, who died recently at Accra, of yellow fever, resulting from his researches into the origin of that disease.

It is believed here that Dr. Young contracted the disease in the course of his researches with Noguchi.

Young was of Scotch descent and had a long experience with tropical diseases. In 1924 at the comparatively early age of 35 he was appointed to his present position.

Tornado Near Kansas City

Kansas City, Mo.—A tornado struck Englewood, a suburb between here and Independence, Mo. Two street cars were reported wrecked. Ambulances were sent to the scene.

Record During March For Canadian Roads

Railways Carry More Freight Than In Any Previous March

Ottawa.—The Canadian railways carried more freight during March, 1928, than in any previous March. Gross revenues also were the largest earned in March, exceeding those of March, last year, by \$2,135,479, or 53 per cent. Although operating expenses were heavier than in 1927 by \$1,252,220, or 3.9 per cent, net revenues were larger by \$883,259. The large carry-over of grain has been an important factor in the heavy traffic and earnings of the railways during the first quarter of 1928, the movement of grain to the Pacific ports being particularly heavy. The March payroll was heavier than in 1927 by \$1,037,133, and the average number of employees increased by 3,022.

The Canadian National Railways increase in gross revenue, compared with March, 1927, was \$756,717, or 4.5 per cent, for an increase in freight of four per cent, and a decrease in passenger traffic of 6.3 per cent.

The Canadian Pacific Railway gross returns for March were heavier than 1927 by \$1,351,348, or 8.8 per cent. Passenger and express revenues showed decreases but all other accounts were larger, freight by 12.5 per cent.

Operate On Cost Basis

Alberta Wheat Pool Elevators Adopt New Policy

Calgary.—Wheat Pool elevators in Alberta will be operated on a cost basis to patrons. This decision was reached by a full attendance of Pool delegates in convention here.

The new policy laid down will represent something new in co-operative effort in Canada, if not in the world. It means that the members will be charged only the bare cost of operating the elevator facilities.

When they haul their grain into Pool houses no service or elevator charges will be made. At the end of the fiscal year the actual operating cost will be available and will be deducted from the final Wheat Pool payment.

This change in elevator policy was recommended to the delegates by the directors. The proposal was to eliminate handling and service charges upon delivery of the grain to the Pool elevator and deduct the actual operating cost on a per-bushel basis from the final Wheat Pool payment.

Has a New Mission

Premier King Requested To Arrange For Necessary Rainfall To Ensure Good Crops

Ottawa.—Premier King has a new mission. The latest request is that he shall appoint himself rain-maker extraordinary to Saskatchewan.

"We have had a wonderful seeding time and everything is now in the ground in good shape," runs a letter from Saskatchewan, which Senator Laird read in the Senate recently. "I wish you would draw the attention of the Prime Minister to the desirability of arranging for a copious supply of rain each week for the next three weeks, and we will guarantee to deliver the greatest crop Western Canada has ever produced."

Vote Sum For League

Ottawa.—The House passed a vote of \$155,968 for Canada's contribution to the League of Nations. Hon. Pugh Guthrie brought up the question of German currency held by the Canadians, which had been repudiated by the German Government. The Prime Minister pointed out that before the Government could do anything in such a case it would have to consider the whole question of speculation, which would be very difficult indeed.

Inquiry Is Ordered

Ottawa.—The parliamentary immigration inquiry has approved a motion for a return showing all special immigration permits issued from January 1, 1920. The report will show the number of permits, officially termed letters of admission or assurance granted to members of parliament and others.

Germany has a shortage of skilled labor.

May Receive Appointment

The possibility that a Canadian judge will take the place on the permanent court of international justice of The Hague left vacant by the resignation of John Bassett Moore, of the United States, is now openly acknowledged in well-informed circles at Washington. Already, it appears, the name of Mr. Justice Riddell, of Toronto (above), as well-known almost in the United States as in Canada, is mentioned as a likely successor to the American jurist.

Bill Defeated In Senate

Government Measure To Amend Naturalization Act Thrown Out In Upper House

Ottawa.—The Government bill to amend the naturalization act was killed in the Senate.

The bill would have placed authority for the granting of naturalization certificates in the hands of the secretary of state without its being necessary for the applicant to make prior application to courts, as now required.

The bill met stormy opposition in the Commons.

It was discussed at some length by the Senate recently in committee of the whole. Eventually Senator Laird moved that the committee rise. This was carried by 38 to 20. The effect was to kill the bill.

Senator Dandurand, Government leader, explained the measure, which he said would simplify procedure and prevent abuses. The state department had a well-trained staff to handle the work. Experience had shown that court inquiries on naturalization were absolutely useless.

Inmates Of Canadian Prisons

Ottawa.—Canadian penitentiaries have at present a total of 2,580 inmates. Of this number, 2,539 are men, and 41 are women. Canadian born number 1,614, and in all 48 nations are represented. This information was given in the Senate in reply to a question by Senator J. P. B. Casgrain.

U.S. Honors War Dead

Thousands Attend Memorial Service At Arlington Cemetery, Washington

Washington.—The White Crossed rolling hills of Arlington beckoned thousands of citizens, soldiers and sailors of the national capital for the annual memorial service, May 30, at the graves of the fallen heroes of all wars.

For the first time since he entered the White House, President Coolidge led the nation in memorial day exercises outside of Washington. His annual tribute was paid in an address near the spot where Abraham Lincoln made his immortal address in Gettysburg, Penn.

Practically the entire day was set aside for services arranged by patriotic and veterans organizations. A feature was a parade of veterans of all wars through the downtown streets and over to Arlington.

Sir Esme Howard, British Ambassador, and Hon. Vincent Massey, Canadian minister, took part in the exercises in Arlington cemetery, where they decorated the graves and the Cross of Sacrifice erected by the Canadian Government in memory of Americans who died while serving as members of the Canadian corps.

Ontario Joins Manitoba

In Legal Fight With Federal Government Over Regulation Of Securities

Toronto.—Announcement has been made by Hon. W. H. Price, Attorney-General for Ontario, that the province is joining with the province of Manitoba in the latter's legal fight with the Dominion Government over the question of certain rights in connection with the regulation of securities.

Edwin Bayly, K.C., Deputy Attorney-General, will leave for England June 15, and will appear with Hon. W. R. Craig, K.C., counsel for Manitoba, when the case is heard by the Privy Council early in July.

Receive Degrees At McGill

Honorary Degree Conferred On Five Distinguished Candidates

Montreal.—The honorary degree of Doctor of Laws was conferred on five distinguished candidates at the 1928 convocation of McGill University.

The recipients were: Sir Wilfred Grenfell, famous Labrador missionary; Rev. Canon Cody, Toronto; William Reid Blair, director of the New York Zoological Park and a graduate of McGill; George Isles, writer, and Julian C. Smith, financier.

Sir Arthur Currie, principal, had not sufficiently recovered from his recent illness to be present.

Appoint Conciliation Board

Ottawa.—A conciliation board has been appointed to investigate the carpenters' strike in Calgary. Mr. Justice Clarke will be chairman. James H. Gordon will represent the employers, Robert Hewitt, the men. The men are asking for an increase of 12½ cents an hour.

COOLIDGE MAKES STRONG PLEA FOR WORLD PEACE

Gettysburg, Pa.—In the first speech to be delivered by a president on the Gettysburg battle field since Lincoln's immortal address, President Coolidge, in connection with the Memorial Day exercises, voiced a plea for the abolishment of war as the fittest tribute to the war dead of America.

At the same time he demanded less indifference to crime in the U.S. and condemned what was described as a tendency of the legislatures to exceed the powers granted to them by the constitution. These things, he said, tended to weaken the regime of law and breed turbulent populations, prone to war.

Declaring the "one thing we want above all else for ourselves and for other nations is a continuance of peace," Mr. Coolidge reviewed negotiations by the state department for treaties against war and for arbitration treaties.

The Briand proposal that the United States and France sign a treaty to renounce war was described by the President as having developed into "one of the most impressive peace movements that the world has ever seen."

"It is my earnest hope that success may crown the negotiations now in progress and that the ideals which have inspired the French minister of foreign affairs and the secretary of state of the U.S. in their joint efforts to find a solution of the problem of peace, may find a solution of the problem of peace."

Would Provide Work For Ex-Service Men

Resolution Favors This As Best Memorial To Earl Haig

London.—The ex-service men at the British Legion conference passed a resolution to the effect that the best tribute that could be paid to Earl Haig would be providing work instead of relief for ex-service men.

Lady Haig was present and said this would have met with the approval of her husband, whose desire would have been, not a statue of himself, but that the men who had fought in the war should be helped.

It is understood that the resolution and Lady Haig's remarks were not intended to deprecate the idea of a national memorial to the late Field Marshal, which the Government is now considering.

British ex-service men will attend the conference of ex-service men, including former enemies, to be held at Luxemburg next September.

Replace Provincial Police

R.C.M.P. Have Taken Over Work Of Saskatchewan Force

Saskatoon, Sask.—The Saskatchewan Provincial police force passes into the pages of history of the northwest, their activities being taken over by the Royal Canadian Mounted Police, the Saskatchewan sub-division being under the direction of Inspector John Kelly, who transfers from the disbanded force to the "scarlet riders." Some other members of the S.P.P. will join the R.C.M.P., while the following members of the latter force, located at the Saskatoon detachment for some time, will carry on: Sergt. A. Drysdale, Detective Sergt. C. E. Hildyard, and Constables T. Theriault and F. W. English. The first two have a long service record in the force, dating back to the old Northwest Mounted days.

Against Fast Time

Vancouver.—Vancouver residents will continue for the remainder of this year to work and play on standard time. By a vote of more than four to one the citizens today voted against adoption of daylight saving time for the summer months.

Complain About Expenses

Ottawa.—Complaints of Canada House were heard in the House when a vote of \$70,000 for contingencies and \$39,000 for salaries for the high commissioner's office in London were under discussion. After considerable debate, the item carried.

Plane Service Cuts Two Days

Pilot J. H. St. Martin accepts the first shipments of parcels by the new Canadian Pacific air-express service. Bi-weekly in each direction between Toronto, Ottawa, Montreal and Rimouski, where the steamers are met, the new service cuts two days off the regular schedule. Domestic traffic between the cities mentioned is also accommodated to time-saving advantage.

Additional Locals

A district resident summoned to court last Friday was found guilty for neglecting to take out licences for two dogs by Justice of the Peace J. W. Phillipson. He was fined \$2.00 and costs and ordered either to destroy the dogs or take out the necessary licences.

The devil always finds mischief for idle hands to do. Will the trades-people of Didsbury let H. Wright, 8 Leuzler Block, write their window show cards or portable signs to keep him out of mischief. Advert.

Geo. B. Oberholtzen and wife of Kitchener, Ont., are staying at Carstairs for a few days enroute to the Coast. Mr. Oberholtzen was visiting friends in Didsbury on Monday and remarked that it was 27 years since he was here last. His former visit was made on an immigration train in company with many others, a few of whom still reside in this district.

Very good prices were obtained by the contributors of the 56 animals disposed of at the Lacombe annual bull sale on June 1. The Aberdeen Angus sales averaged \$125.75; the Herefords \$175.55 and the Shorthorns \$146.15, with a grand average of \$145.00.

Indicating the increased business in the Peace River country as a result of the heavy movement of new settlers into the north during the past few months, an augmented freight service is being established on the E. D. & B. C. line between Edmonton and Wembley, it is announced by the Provincial department of railways.

Commencing June 11, three way-freights per week will run over the line, instead of two as in the past, leaving Edmonton on Monday, Wednesday and Friday, and reaching Edmonton from the north on Tuesday, Thursday and Saturday.

Chester White Hogs Make Poor Showing

Further active steps have been taken during the past week by the department of agriculture to check the activities of salesmen representing the Central United States Swine Company, who have been taking orders for Chester White hogs in various sections of the province. The proposition, which at first sight appears attractive, proves on investigation to be very unsound from the standpoint of the farmer. The Bankers' Association has also

TWO GIANTS OF SHIPPING CIRCLES

The Canadian Pacific liner "Empress of Australia" is seen in the huge floating drydock at Southampton, England, where she was placed for inspection after her South America-Africa cruise. This dock bears the reputation of being the largest of its kind in the world with a length over all of 960 feet, width at the point of entrance being 134 feet and the depth of water over the keel blocks is 38 feet.

GENERAL MOTORS PLANS FACTORY IN WEST

The announcement recently that a million dollars will be spent by General Motors of Canada, Limited on the erection of a manufacturing and assembly plant at Regina is a very practical form of the optimism which one

of the country's largest manufacturers has for the future of the Canadian West.

Establishment of the Regina plant is in pursuance of the General Motors policy of placing assembly plants, where volume of sales warrants, as near as possible to the centre of distribution for the particular territory.

Why sacrifice health and pleasure to Aching Feet?

The way to quick, lasting relief is easy

Dr. Scholl's Foot-Eater quickly relieves tired, aching feet, restores weak and broken-down arches. Worn in any shoe. \$3.50 per pair.

WE LOTUS EATING TOURISTS

THRILLINGLY INTERESTING CHINA

HAWAII WOUND ITSELF ABOUT OUR HEARTS

OUR FLOATING HOME

We passed in luxurious comfort, free from any care or irritating responsibility and absolutely without one disturbing incident from continent to continent," stated Lady Williams-Taylor on her return from a world cruise on board the Canadian Pacific liner, the "Empress of Australia," during which four continents, twenty-one countries and twenty-six ports were visited and seven seas traversed. "With sheltered ease," continued Lady Taylor, "we had unfolded to us the soul-penetrating magnificence and the somewhat repellent fanatical conditions of India and distraught, yet ever thrillingly interesting China. We steamed up and down the dangerous Pearl River, and saw first-hand the devastation of Canton. Mysterious Java, and almost untouched Sumatra, held us spellbound. Singapore and its ever-

growing docks amazed us, and lovely Ceylon enchanted us. But Hawaii wound itself about our hearts and, to its haunting 'Aloha Oe,' we saw it fade away through regretful tears. Not only are the islands more than fascinating, but the Royal Hawaiian Hotel would tempt any traveller to return. "After such a wonder tour of 133 days," concluded Lady Taylor, "we 'Lotus Eating Tourists' have once again to face the realities of ordinary existence without the untiring supervision and perfect organization of the mighty and far-reaching Canadian Pacific Railway and Steamship's protection and care of us. It was, indeed, with hearts full of gratitude and appreciation for our splendid captain, his staff, and for the constant and devoted attention of the cruise directors, that we finally bid farewell to our floating home—the 'Empress of Australia.'"

Calgary Lodge Pays Visit to Local Fraternity

Didsbury was again favored on Tuesday of last week by the visit of about 30 members of Zetland Lodge, A. F. & A. M., Calgary, who arrived here about 7:30 p.m. to join with King Hiram Lodge in the "labors of the evening." The fraternal welcome given the visitors was a very hearty one and will no doubt cement still further the cordial relations that have so long existed between these two Masonic bodies.

After labor came refreshments and the closing of the Lodge was the signal for a general exodus to the Oddfellows' Hall adjoining, where the members of the Eastern Star, typical of their emblem, shone resplendent amid tables beautifully decorated with choice flowers and thronged with dishes of various delicacies.

With Wor. Bro. J. L. Clarke in the chair, in addition to several toasts, community singing was added at intervals. Those contributing to the vocal and instrumental numbers comprised Miss Sangstead (song), Mrs. Miller and Mrs. Boorman (piano), H. Toupin (song), G. Boorman (violin) and W. Turner, Calgary (song).

WHEAT POOL NEWS

Wheat Pool elevators in Alberta will be operated on a cost basis to patrons. This decision was reached by the seventy delegates assembled in convention in Calgary, commencing May 29th. It was decided to make this policy retroactive. The excess earnings of the elevator system during the 1927-28 crop year will be disbursed to the Pool members who put their grain through these elevators.

The change in elevator policy was recommended to the delegates by the directors and two proposals submitted. The first proposal was to eliminate handling and service charges upon delivery of the grain to the Pool elevator and deduct the actual operating cost on a per bushel basis from the final Wheat Pool payment. This method was adopted by the delegates after a lengthy discussion.

The second proposal was to make the usual elevator charges to Pool members delivering their grain and to refund to patrons at the end of the fiscal year any excess charges over and above actual operating and overhead costs. The Saskatchewan Pool embodies this policy in the operation of its elevators.

The new policy decided upon will mean a distribution of Pool elevator excess earnings during the present crop year only to those who patronized Pool elevators, on the following basis: (1) through Pool country houses, (2) platform shipments to Pool terminals, (3) through non-Pool line elevators to Pool terminals. The incoming crop will be handled through Pool elevators on an actual cost basis.

Helen Rullens and Hector Totten, juvenile entertainers, who have become very popular through their appearances on the Calgary stage during the past few seasons have signed for a tour of the Chautauqua circuit this summer in a programme of song and dance numbers. They appear at the Opera House, Didsbury with Gene Stratton Porter's story "FRECKLES". Usual time and prices. On the stage at 9 and 10 30.

Church Announcements

United Church

Rev. A. E. Hayes, B.A., Minister.

Sunday, June 17th

Community Hall 11.00 a.m., Westcott 2.30 p.m., Didsbury 7.30 p.m.

Rev. R. W. Hibbert emphasized the idea last Sunday before a well-filled Church that if a kingdom is to be obtained it must be grown. The world needs Christian men and women and your homes, your churches and your schools are the only places from which they can come. Therefore we must prepare to produce.

The people in connection with Knox Church, Didsbury, have fallen in with the idea that a better building is in keeping with the growing of this kingdom. The building committee met Monday night and made further plans for the new Church. An important announcement will be made Sunday.

Lutheran Church

Westcott 10.30 a.m., German. Didsbury 2.30 p.m., German.

Baptist Church Notes

All are cordially invited to attend any service at either Zella, Elkton or Westcott. Come and bring a friend.

Evangelical Notes

The Northwest Canada Conference of the Evangelical Church convenes at Moose, Sask. this week, June 12 to 18. Rev. H. E. Roppel and D. Dippel left on Monday as representatives of the Didsbury circuit.

Two memorable meetings were held in the Evangelical Church Saturday evening and Sunday morning, June 2 and 3. The presence of Bishop J. S. Stamm, D.D., of Kansas City, accompanied by the Superintendent of Missions, Rev. W. W. Krueger of Regina, had been long looked for with fondest anticipation. During their stay here the Bishop gave two master discourses, one on "Prayer" Saturday evening and the other on the "Holy Communion" Sunday morning. In the latter service the church was filled to capacity.

Life Insurance Service

"A Corrective of the Trend of the Times"

Ladies and Gentlemen:—Are you heeding the warning to beware the great army of high-pressure salesmen who are importuning the public to "eat, drink and be merry, for tomorrow you die," and are screaming, "Spend, Spend, Spend!" at the top of their strident voices. Will you let me explain to you how, through the medium of Insurance, you can Save and provide for future unexpected contingencies.

My appeal is not to self-indulgence but to self-sacrifice;
Not to extravagance but to prudence;
Not to hysteria but to common sense.
WHAT ARE YOU GOING TO DO ABOUT IT?

You control your own destiny.

Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

(Continued)

Before entertaining us to lunch Mr. Marsh gave a very informative and comparative talk on the British bacon industry, illustrating his remarks with a number of slides of bacon from many different countries and special cuts arranged for the purpose.

From the Marsh and Baxter plant we proceeded direct to Birmingham, where we were received by the Lord Mayor, Alderman A. H. James, C.B.E., J.P., after which we were taken through the magnificent City Hall and shown some of the art treasures there. In the evening we saw a charming musical comedy "Up with the Lark," a block of the best seats in the house having been reserved for us.

Sunday was spent quietly in Birmingham, our itinerary including a motor tour of the environs of the city and a talk on Denmark by Mr. J. Nugent Harris, of London. Mr. Harris had lived for some years in Denmark, and his love for that country shone all through his delightful address, which was accompanied by a remarkable selection of Danish slides. On Monday morning, after a brief tour of the Birmingham Market, we proceeded south to Kenilworth Castle, one of the most extensive baronial ruins in England. Kenilworth dates from 1120, and was presented in 1362 by Queen Elizabeth to her favorite, Robert Dudley, who was wont to entertain her there in magnificent style.

Our next stop was Warwick. Warwick Castle, described as the "most princely seat in the Midlands," is still occupied by the Warwick family. Warwick is a fine old country town with winding streets and many ancient buildings. The castle, which was visited by some of our party, dominates the town. The earliest building dates from the 10th century although the present castle is 15th century.

Shakespeare's country is a few miles from Warwick. The house in which Shakespeare was born remains little altered, and wandering through the rooms we saw on walls and ceilings the signatures of many famous visitors, amongst them Scott, Charles, Thackeray and Browning. The village of Shottery Hathaway is about a mile away. It was a delight to visit this beautiful and well preserved old place, today the property of the nation. The cottage contains much of the old furniture and many of the old fittings. We also visited Holy Trinity Church, set amid the trees on the bank of the Avon. Here Shakespeare is buried and here also is the grave of his wife. The font at which Shakespeare was christened is still to be seen in this church and the parish register, containing a record of his birth on April 26th, 1564, and of his death on April 26th, 1616, is also preserved.

Our stay at Oxford was short, but we were fortunate in being able to stroll through the grounds of one of the colleges and in seeing the memorial to the poet Shelley. The statue, beautifully wrought in marble, shows the drowned poet lying exactly as he was found after having been washed up by the sea. When first set up its stark realism created a sensation.

Our next stop was at Windsor Castle, which is still used by the Royal Family. Here we were privileged in seeing the State Apartments, the magnificence of which words fail to describe.

The castle overlooks the River Thames and has been the place of residence of English kings for centuries. Here James I., of Scotland, King John, of France, and King David, of Scotland, were held prisoners, and in one of the gardens James I. saw from his prison Joan Beaufort, his future wife.

A vault in the castle in which repose the remains of Henry VIII., Charles I., and Queen Jane Seymour, is connected by a subterranean passage to another vault where are buried George III., George IV., William IV. and Edward VII. Queen Victoria and her daughter, Princess Alice, are buried in Frogmore Mausoleum which lies in the park adjoining the castle.

Near Windsor Castle is Eton College, which was founded by Henry VI., in 1540.

From Windsor we proceeded to the King's farm, to be shown over the buildings by Mr. Murray Conacher, the manager. Mr. Conacher paraded some of the King's Prize Herefords and showed us fine examples of Devon and Jersey breeds. The Royal Farm is 1,200 acres in extent. Before leaving we were entertained to a delightful tea in the Royal Dairy.

This was our last stop before London, and excitement was at fever heat as we proceeded down the magnificent paved road which leads from Windsor to the Metropolis. Night was falling as we threaded our way through the steadily increasing traffic. Double deck buses with which we were to become more familiar in London, began to make their appearance as we reached the outskirts of Greater London. At last after passing many unbroken miles of buildings, we found ourselves in Oxford Street, then Regent Street, and finally at our hotel, the "Regent Palace" just off Piccadilly Circus in the very heart of the West End.

We rose bright and early on our

first day in London, for we had seven engagements facing us, including the reception by His Royal Highness, the Prince of Wales. Our first trip was to Covent Garden, once the garden and burial ground of monks, but now London's greatest distributing centre for fruit and vegetables. Here we were given our first inkling of the enormous consuming power of the people of Greater London, for we saw before us one day's supply of fruit and vegetables for a population equal to Canada. It was not to be believed that one province of Spain alone sent 4,000,000 cases of oranges to this great market, and a great pleasure to learn that some varieties of Canadian apples had won a leading place in public favor.

Our next engagement was to visit the Cocksfoot Street offices of the Canadian National Railways, where we were cordially received by Mr. C. J. Smith, the European Vice-President, together with his department chiefs. The run of this fine building, owned by the C.N.R., was given to us, and we had the pleasure of seeing the latest copies of Canadian papers. An interesting feature of the fine offices, which house a busy staff of some one hundred people, is a magnificent mural frieze by Frank Brangwyn, R.A.

(To Be Continued.)

No Rest With Asthma.—Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merits through years of service. A trial will surely convince you.

Wool Prospects Good

Substantial Increase in Export of Wool From Canada

A very substantial increase is to be noted in the export of wool from Canada in the last fiscal year. This increased from \$2,233,341 lbs. worth \$1,558,660 the year before, to 11,140,101 lbs., worth \$3,149,967.

According to the Canadian Co-operative Wool Growers, Limited, wool prospects are very good with the condition of the new wool bright and the shrinkage average. Foreign market conditions are also reported excellent.

Sores Heal Quickly.—Have you persistent sores that refuse to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is a recognized healer among old and numbers of people can certify that it healed where properly applied.

Recipes For This Week

(By Betty Barclay)

SCALLOPED DISHES

Pour over layers of well-seasoned meat, fish or vegetable enough medium cream sauce to cover. Sprinkle well with buttered crumbs and bake until brown. When combined with starchy dishes such as potato or macaroni, use thin cream sauce. Medium cream sauce calls for 1 cup milk, 2 tablespoons flour, and 2 tablespoons butter. Thin cream sauce calls for 1 cup milk, 1 tablespoon flour and 1 tablespoon butter.

ORANGE STRAWBERRIES

1 box strawberries.
Juice 2 oranges.
1 cup sugar.
2 cup heavy cream.
2 tablespoons powdered sugar.
1 teaspoon vanilla.
Wash and hull strawberries, cover with orange juice, mixed with one cup sugar, and chill thoroughly. Serve in champagne glasses. Beat the cream until stiff. Add powdered sugar and vanilla, and, with the pastry bag and tube, pipe a border around each glass.

Travelling Clinic in Alberta

Where Medical Services Are Hard To Obtain
During the month of May, a travelling clinic, with two doctors, a dentist and three nurses, is touring through the northern sections of Alberta. The travelling clinic is a new phase of public health work, developed to cope with conditions in sparsely settled districts where medical and dental services are difficult to obtain. Where there are doctors or dentists, the clinic co-operates with them. It does educational work, examinations and, in special cases, minor operations.

Minard's Liniment for Insect Bites

SUNDAY SCHOOL LESSON

JUNE 17

THE CRUCIFIXION

Golden Text: "God commendeth His own love toward us, in that, while we were yet sinners, Christ died for us."—Romans 5:8.

Lesson: Mark 15:16-47.

Devotional Reading: Isaiah 53:7-12.

Explanations and Comments

The Crucifixion, verses 22-27. — They led Jesus away to be crucified, going outside the city, as was the Jewish usage (Acts 7:58), to Golgotha. Golgotha means "the place of a skull." We call the spot Calvary, from the Latin word calvaria, skull. It was customary to give one about to be crucified a stupefying drink, and they offered such to Jesus, wine mixed with myrrh, but He refused it. Matthew says He tasted it and then refused it. Jesus regarded the suffering before Him as part of the cup which the Father had given him to drink, and He would drink it to the dregs.

The garments of the crucified—the headress, shoes, outer garment, girdle, and seamless inner robe—were the perquisites of the executioners, and the soldiers cast lots to see what each should have.

"There have been many like these soldiers, unmoved by the most pitiful tragedy, save by what they could get out of it. In the Great War, when mothers gave their sons, wives their husbands, and men themselves, and the nation poured out its money in a passion of service, the profiteer thought only of his own greed. He had no call to service; he saw only a chance to get rich. He got rich, but his wealth is blood money."—Joseph Fort Newton.

It was the third hour, nine o'clock in the morning, when they crucified Him. The inscription placed above Him on the cross was "The King of the Jews." Pilate knew of no crime of which Jesus had been guilty, and by this inscription he sought to annoy the priests, who, as he expected, considered it an insult to themselves. John 19:21-22. That all who passed by might read it, the inscription was written in Hebrew, Latin, and Greek (John 19:19, 20), the languages spoken at this time throughout the civilized world.

On either side of Jesus a thief was crucified. "Crucifixion was terrible and disgraceful enough in itself, but if Jesus had hung upon His cross with another near him to disturb the impression of His calm serenity and innocence, it might have happened that the people who stood and watched would have lost sight of the disgrace and would have felt the majesty of the sacrifice. Already that place of suffering might have seemed as glorious as it has seemed to the world since. But as it was, they went to the prison and dragged out two wretched culprits who were waiting for their doom. That there might be no doubt about the disgracefulness of the Saviour's sufferings, they hung Him between two thieves."—Phillips Brooks.

Don't Make a Toy Out of Baby

Babies Have Nerves

By RUTH BRITTAIN

Much of the nervousness in older children can be traced to the overstimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep yet it contains no drugs or opiates. It is purely vegetable. The recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

CHAPTER XXV.—Continued.

Sam had been in our law courts. He had listened to many learned friends disagreeing with other learned friends, and he had become somewhat of a learned friend himself. He had one rule, "admit nothing—deny everything—remember you were not there when it happened." So, when a well-dressed young man came asking for a Finnish girl with red hair Sam knew nothing. In Sam's limited sphere the relations between men and women were elemental and simple. Maybe the police wanted his red-haired girl—that might be. Well Sam did not want to lose her, she was a good girl, honest girl—she rang up the right change. Sam did not usually trust any white girl with change, but he was glad now that he had found one whom he could not catch, for it might be she was honest all the time.

"No," Sam did not know—Sam did not know anything. Sam did not tell Helmi, either, "nice girl, Helmi—if wanta fella she could get plenty—no use gettin' nice girl all excite."

Helmi went back to the "Good Eats Cafe" one day to see if it would be possible for her to be given longer hours. The dollar a night was not going to be sufficient for her needs. Her room rent was fifteen dollars a month, and even at that she suspected the Corbets were paying some of it. She would like to go to work at two o'clock in the afternoon if Sam could arrange it. He had been away for a few days and another Chinaman had been in charge.

When Helmi arrived old Sam was at his accustomed place behind the desk, very elegant in a new black suit and a white tie. He wore a white flower in his buttonhole, and resembled a church usher on Mother's Day. Helmi remembered how they looked in Miss Abbie's church. He was very friendly with her, and bowed cavalierly over her hand. Helmi had learned to suspect polite men of being

"A GREAT
TONIC," SAYS

Fenwick, Ontario.

W. N. U. 1737

drunk, but old Sam was always sober. The cafe, too, was festive in its appearance. Flowers in bloom were on the tables. A drooping fuchsia in the window rained its crimson and purple blossoms down like a spraying fountain, and squares of embroidery hung on the walls. Helmi wondered at the changes. It must be some Chinese holiday, she thought.

Sam came around from the desk to greet her, and she noticed further improvement—Sam had false teeth, with some gold ones. His nails were daintily manicured and his hands heavily perfumed. "Nice led-halred girl," he said, shaking her hand sideways; "good girl cally tlay. Old Sam got nice liddle white girl now all his own. Soon she come, my girl—grand girl—Mrs. Sam Lee—drives big car—my girl."

As he spoke a big gray car with silver mountings drew up to the curb, and a lady in a scarlet suit came out. She came into the "Good Eats Cafe," filling the doorway with color, like some strange tropical bird. Helmi's eyes were so dazzled by the vision that in her admiring survey she had not yet reached the face.

A shout came from under the drooping black hat, and the beaming lady bore down upon Helmi. "Helmi, my love, come to me! I always knew I would find you."

"Rose Lamb!" cried Helmi, breathless with excitement. "Rose, are you out?"

"Hush," cautioned Rose, dimpling and drawing her shoulders up, "I was never in. You and I met at a Young Ladies' Seminary—no tradesman's daughters allowed—remember! Not that good old Sam—mind—he's been in jail, and it makes them broad to go to jail; but for the sake of my social position, mum's the word. Sam, tea for two please. Sit down Helmi, and let me look at you."

Have you been converted lately? O Lord, do you remember how we were prayed over? I got to be their little pet lamb—pure as the driven snow—but I drifted! Well where have you been?"

Helmi told her.

"Married? That's bad. But I knew it. I saw it in you—you were that kind. And your man has sort of been mislaid, temporarily. He is only a miner—let him go—its beastly poor pay, I hear."

"But I want him to come back," said Helmi, "I love him, Rose."

"Ain't that like you, Helmi? Of course you do, and you have a baby, and I suppose you keep it too."

"I sure do," said Helmi.

Sam Lee had gone into the kitchen, and Helmi leaning close to Rose, said: "Rose, did you marry old Sam?"

"Kid, you've said it," replied the bride; "sure did—license, ring and all, Sam Lee, widower, Rose Annabel Lamb, spinster—Anglican clergyman doing the job."

"Rose, how could you? He is not only a Chinaman, but old—very old; he must be at least sixty."

"Sixty!" Rose almost shouted. "Don't kid yourself—he's eighty. I wouldn't look at anyone only sixty—he might outlive me. Sam is safe—he'll snuff out like a gentleman. Little Rosie, all alone—think of it!—with some forty thousand bones. How's that?"

"No good," said Helmi, shaking her head; "no good."

"Kid, I couldn't work. I hate dish-water and I couldn't scrub—it always made my nose sore. I hate work and what could I do? If I had lots of money I'd run straight. Old Sam is not so bad, and the gray car is a pippin."

Come and see our house, Helmi; it's swell—rugs of blue and rose, with one little tea house in the corner; tapestries in gold blossoms; lamps of hammered brass—oh, come and see it. Sam, some more ginger! Thanks, old top. Lots of room for you, too, Helmi. I'll give you a room in rose and gray with fresh flowers every morning. Come Helmi, let's have a little run in the car. I've been pinched once for speeding, but I'm careful now. I want to tell you about what happened after you left."

Helmi went with Rose to the car and stepped in after her. The sudden rush of air, the delightful feeling of motion, the sensation of freedom, with these Helmi's fears fell away. Impulsively she hugged her friend's arm. "Oh, Rose, its good to see you," she said.

Two men on the sidewalk regarded them closely. One watched them with

Badminton players find a drink of hot tea of great benefit after a strenuous game. In leading Badminton clubs of Canada, Red Rose Tea is a great favorite. No other tea offers such brisk, zestful flavor and rich quality. Put up only in bright, clean aluminum packages.

MEW

wicked-wise eyes, cynical and hard, the only gleam of gladness in them due to his suspicions being verified. The other man's eyes burned with a great sorrow and a bitter disappointment.

"You see what I said," remarked the first, "that woman driving the car is well known in the underworld. Lately she has come here as the mistress of a rich Chinaman. The Finnish girl is one of the gang, as you can see. Mr. Doran, you are well out of it."

Jack leaned back against the doorway, sick at heart.

"Now I want to tell you something," said Major Gowsett, for it was he; "that girl has no legal hold on you. Col. Blackwood did not record the marriage. He knew her history, you see. She has therefore no hold on you, so do not worry about that."

Jack turned away without speaking.

The loom of life went on with its weaving, but from Helmi's life the golden thread had gone. But, of course, the flying shuttles cannot stop to look for ends. The loom of life does the best it can with the threads its shuttles are able to bring, but it takes no responsibility for the pattern.

CHAPTER XXVI.

Mrs. Kalinski and Mrs. Corbett were having a cup of tea in the latter's big room one afternoon when Mrs. Corbett had finished her duties as janitor's wife who could be got by the hour to "do out" rooms for the tenants.

"I've turned out Mrs. Rowan and Mrs. Snider today, given Mrs. Brown a lick and a promise, and put Mrs. Flickdahl off until tomorrow," said Mrs. Corbett, as she set the peanut butter and strawberry jam on the table and proceeded to cut slices from the loaf. Mrs. Kalinski was still "waiting."

"It's a long time—the last month," said Mrs. Corbett soothingly, "sure every day brings it one day nearer and it's yourself has everything ready and fine and nothin' to do but to hop into bed and call the neighbors and good old Dr. Eckhardt. I never saw a woman any readier than you are, with the name and all."

(To Be Continued.)

Our Foreign Words

Few People Know That Hundreds Are Used Every Day

How many foreign words do you use in a day? Perhaps hundreds.

It is true that by usage many words have become part of our own speech, but pool is Keltic, ill is Scandinavian, yacht is Dutch, waltz is German, phantom is Greek, and extra is Latin.

Nearly every military term is French, grenade is Spanish, macaroni is Italian, caste is Portuguese, chintz is Hindu, lilac is Persian.

Sabbath comes from Hebrew, alcohol is Arabic, bosh is Turkish, sago is Malayan, and tea is Chinese.

SUMMER COMPLAINT
Nearly Lost Her Little Girl

Mrs. Theodore Rivett, Anthony, Ont., writes:—"Last Fall I nearly lost my little girl as she was suffering terribly from summer complaint. She became very thin and weak; had no appetite, and could hardly walk across the room without falling down. At last my mother advised me to get a bottle of

and after she had taken a few doses she was relieved.

I also found it a grand remedy for cramps, and would not be without a bottle of it in the house for anything."

Has been on the market for over 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Glass Windows In Ancient Times

Art Of Glass Making Was Known To the Early Egyptians

Glass windows are not the relatively modern things they are commonly reputed to be. According to Dr. M. Blaschke, a German ceramic chemist, they were in use in ancient Rome. Most of the panes did not exceed 12 by 16 inches in size, though a few larger ones have been found.

Glass-making, known for many centuries in Egypt, came to Rome relatively late. During the time of Cicero, who died in 43 B.C., glass objects of any kind were rarities, and glass windows were unknown. A hundred years later most households owned some, and by the time the empire was well established glass was fairly common. The famous mosaics of the later empire, notably at Ravenna and Constantinople, were made largely out of bits of glass.

AVOID THE PAINS
OF RHEUMATISM

This Trouble Comes Through Weak, Watery Blood

Many people suffer rheumatic pains that could be avoided by building up the blood. Rheumatism comes with thin, watery blood, and can only be driven out of the system by enriching and purifying the blood. To make rich, red blood no medicine equals Dr. Williams' Pink Pills. These pills actually make new blood, driving out all poisonous secretions, and creating a condition of robust health. Thousands of rheumatic sufferers can testify to the value of Dr. Williams' Pink Pills. Among them is Mr. Jos. A. Tully, Bobcaygeon, Ont., who says:—"As a worker in the woods for years I was exposed to all kinds of rough wintry weather. The result was that I was finally laid up with rheumatism. I could hardly stir, and was confined to bed. Medicine seemed to have little or no effect and the best encouragement the doctor gave me was that with the coming of warm weather I would be better. But instead of getting better, I grew worse. My joints were badly swollen, and my legs so stiff they would hardly support my body. At this stage I read that Dr. Williams' Pink Pills were recommended for rheumatism and decided to try them. The results were beyond my expectations. After a few weeks the swelling had disappeared, and the stiffness gradually wore away, and much sooner than I expected all traces of rheumatism had disappeared. The next winter when I went into the woods I took a supply of Dr. Williams' Pink Pills with me, and they kept me in the best of condition. My experience should give encouragement to other rheumatic sufferers."

You can get these pills through any dealer in medicine, or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

CROOKED TEETH

Nature is no bungler; but plans wisely. So it is that she has intended teeth should occlude, or come together, in certain definite relationships, with cusp interlocking as "the cogs of two wheels which work in harmony."

But quite frequently her aim is thwarted, and there is an abnormal relationship known as mal-occlusion.

Many and varied causes as we have been cited contribute to this condition as: meddlesome extractions; decayed shedding; tardy eruptions; improper masticating habits; faulty diet; deforming habits of the young child; and general diseases affecting tooth development.

But there is a type of mal-occlusion, without the so-called "crooked teeth." The teeth may in fact be exceptionally well formed and placed normally in the arch, so that in this type the arch "per se" is at fault, either exhibiting a deformity, or being in improper relationship to its fellow.

Mal-occlusion may be very noticeable, evincing a protruding or retruding jaw, or other facial deformity; but again, the facial contour may not be altered from normal to any appreciable extent.

Apart from this relationship to facial expression, however, mal-occlusion may lead to serious disturbances of the teeth themselves.

It may be that due to this condition that one or several teeth are receiving excessive stress, resulting in a diseased condition of the tissues enveloping the tooth, or teeth, and menacing the life of the teeth involved.

Moreover, teeth that are not functioning properly through disease, may be weakened structurally, leaving them more prone to decay; and in any event, they are not receiving the benefits of normal tooth exercise or of the mechanical cleansing, through exursive masticatory movements, which, after all, is the best defence against the forces of tooth decay.

Little Helps For This Week

"All things whatsoever ye would that men should do to you, do ye even so to them."—Matthew vii. 12.

And each shall care for the other,

And each to each shall bend,

To the poor a noble brother,

To the good an equal friend.

—Ralph Waldo Emerson.

No curse has fallen on us till we cease

To help each other.—George Elliot.

Try do to others as you would have them do to you, and do not be discouraged if they fail sometimes. It is much better that they should fail in obeying the greatest rule laid down by our Saviour than that you should.

—Charles Dickens (Letter to his son)

Queer Law In Venezuela

Two Horns Must Be On Every Motor Vehicle

One horn is not enough for the automobiles of Venezuela. Under the latest law, double facilities for making a noise are required in that republic, a hand horn for the city and electric horn for the country.

Actual practice shows that the drivers usually do not stop with two horns, but have three, one hand operated and the other two electrical.

The button for one of the electric horns is on the steering wheel, while the other is placed on the left door of the car and is operated by pressure of the driver's knee.

Some men's only business is pleasure and the only pleasure of others is business.

Gum-Dipped
Tires Save
You Money

Gum-Dipping is an exclusive Firestone process. It insulates and impregnates every fibre of every cord with rubber and prevents the cords from chafing against each other.

In ordinary tires these cords are uninsulated. In flexing they chafe against each other, causing internal heat and friction which softens the rubber, causing blowouts and tire failure.

These better tires cost you no more, yet they give thousands of extra miles. See your nearest Firestone Dealer.

ROSEBUD ITEMS

Mrs. McDonald is visiting her parents, Mr. and Mrs. Eubank.

I. L. Klein has purchased a new Ford (1917 model).

Mr. and Mrs. D. Irwin motored to Blackie last week-end.

Juanita Wilson returned home from Normal on Monday.

Mr. Wilfred Klein has been visiting at the Fox home the past two weeks.

The rain which fell last week was very much appreciated by the farmers.

Mr. and Mrs. I. L. Klein and Elinor and Mr. and Mrs. Fred Imm and Elsie motored to Calgary on Monday.

Mr. Peter Fox has traded his old tin can for an old Ford. He tries to keep the north and south road hot. O-h P-e-t-e-r!

The Rosebud baseball team played the Clovermount boys last Saturday night. Unfortunately the Rosebud boys lost 14-4. But cheer up boys, we all hope for the better next time.

Although the roads were very muddy the same old Rosebud bunch went to the dance at the Community Hall last Friday night. We all got there altho one Ford refused to go very far.

Wednesday, June 20th. Zane Grey's "Under the Taunted Rim" at the Opera House, Didsbury

Leave All Your Old Ideas at the Showroom Door

UNLESS you have already examined the New Series Pontiac Six and driven it . . . your ideas of six-cylinder car value are due for radical revision.

Leave those old ideas at the showroom door. Come in and see the car. Then drive it.

Get the feel of the big, smooth six-cylinder engine, with its GMR cylinder-head. Let the car leap forward at a touch of your toe on the accelerator. Bring it to a swift stop with a gentle pressure of the positive four-wheel brakes.

And, all the time, experience the easy-riding comfort of the four Lovejoy Hydraulic Shock-Absorbers and the luxury of perfectly-appointed, beautiful Fisher bodies.

Then—learn Pontiac's amazingly low price—and you have discovered a six-cylinder value that upsets every preconceived idea you may have had.

Ask your dealer about the G.M.A.C. Deferred Payment Plan which makes buying easy.
